# ADVANCING THE VISION

2

*Dear Friends:*

*In keeping with our mission, we have maintained focus on supporting progressive healthcare services, innovative educational activities and thought leadership in communities where Express Scripts employees live and work.*

### ***More Effective Stewardship***

*To more effectively target and leverage Foundation funding, we formalized reporting requirements for all funding recipients in 2005. This requirement gives us the ability to assess the impact achieved and to evaluate requests in the context of results, allowing more effective stewardship of the Foundation's financial resources.*

### ***Volunteerism***

*We have always encouraged Express Scripts employees to volunteer their time, energy and money to worthy causes and activities. As in past years, we are proud to supplement their generosity with Foundation dollars. Employees participate in March of Dimes walks, serve on Boards of Directors and contribute in many other ways to strengthen their communities.*

### ***Allocation of Resources***

*We are pleased to have received applications from so many deserving organizations. As always, needs exceed the Foundation's resources, and choosing among worthy applicants presents a challenge. It is a challenge we welcome, however, and we look forward to expanding the reach of our assistance over time.*

*Without exception, the institutions supported in 2005 and 2006 exhibit uncommon vision and passion. The scope of their efforts is vast, touching an incalculable number of lives and creating a better future for the communities they serve.*

*Sincerely,*

*Jane E. Nelson  
Chairman, Express Scripts Foundation  
General Counsel, CPI Corp.*

# EXPRESS SCRIPTS FOUNDATION'S MISSION

As a healthcare organization, Express Scripts is strongly committed to making a positive difference in communities where we have a significant presence. We demonstrate our dedication to progressive healthcare management and strong social values through our support of:

- Medical and health-related causes, particularly those focused on supporting youth and strengthening families
- Educational activities to help create tomorrow's leaders
- Causes that embody the spirit of innovation, demonstrate thought leadership or in any way support our corporate goals
- Nonprofit organizations in which Express Scripts employees are actively involved

*committed to making a positive difference*

## SUPPORTING HEALTHCARE

Healthcare is the heart of what we do at Express Scripts. Here's a sampling of the many organizations we support that are dedicated to compassionate care of patients and excellence in healthcare services for those with the greatest need.

### *Ranken Jordan Pediatric Hospital*

One of only five pediatric specialty hospitals in the United States, Ranken Jordan meets the medical and developmental needs of seriously ill and injured children, regardless of their ability to pay.

### *Community Health-in-Partnership Services (CHIPS)*

A not-for-profit organization, CHIPS provides healthcare and social services for the uninsured and underserved, with an emphasis on preventive care.

### *Nurses for Newborns Foundation*

Nurses for Newborns reaches out to young mothers with at-risk babies. Registered nurses make home visits to teach parenting skills and advise mothers on medical issues.

### *March of Dimes (multiple locations)*

The March of Dimes is dedicated to improving the health of babies by preventing birth defects, premature birth and infant mortality — a mission the organization pursues through research, community services, education and advocacy.

*dedication to strong social values*

# SUPPORTING EDUCATION

---

Education is the foundation for all innovation — for ideas that improve the quality of our lives and keep us advancing toward a better world. Below are examples of the outstanding educational institutions and organizations we support through the Express Scripts Foundation.

## *Mentor St. Louis*

Mentor St. Louis links caring adult volunteers with elementary school students to enhance educational and social development, improve school attendance, stimulate a positive attitude, and elevate self-esteem.

## *Logos School*

Logos is a private middle and high school for students with academic and emotional needs not served in the traditional classroom. The school emphasizes a strong program of individualized academic study, innovative therapy and parental involvement.

## *Southern Illinois University Edwardsville School of Pharmacy*

The SIUE School of Pharmacy provides excellence in pharmaceutical education and develops pharmacy leaders to serve the community and improve the quality of healthcare services.

## *Parents as Teachers National Center*

Devoted to parent education and early childhood development, Parents as Teachers serves parents from pregnancy to kindergarten. The Foundation funds the Center's Hearing, Vision, Health and Developmental Screening program.

5

*help create tomorrow's* leaders

## SUPPORTING THE COMMUNITY

---

Many organizations benefit specific causes and pursue specific missions. At the same time, they coalesce the energies of their employees, members and volunteers in ways that strengthen the entire community and spur the spirit of innovation. Here are a few such organizations we support with pride.

### *YMCA Fit for Life Program*

Fit for Life provides tools that enable patients to manage their health, and control risk factors for cardio vascular disease and diabetes. It provides a structured health and fitness program that yields measurable results.

### *Donald Danforth Plant Science Center*

A not-for-profit research institute with a global vision to improve the human condition, the Danforth Center conducts research to improve human health by enhancing the nutritional content of plants and creating a sustainable food supply.

### *Missouri Botanical Garden*

The Garden conducts the world's most widespread botanical research program, with projects in 30 countries. The program furthers understanding of botanical contributions to our global ecosystem and promotes conservation of biological diversity.

# BUILDING FOR THE FUTURE

---

In selecting grant recipients, we are guided by our mission, always mindful of our core values. Adhering to these values will, we believe, pave the way toward a healthier, more enlightened future for the people whose lives we touch and for our communities.

Over 2005 and 2006, the Express Scripts Foundation is proud to have contributed a total of \$1,349,389 to the organizations listed on the back cover.

We are also pleased to support Express Scripts' employees' deep commitment to learning in 2005 and 2006 by matching their contributions to a variety of educational institutions. Matching funds totaled \$76,780 for both years.

"Because our clients are uninsured or underinsured, they often delay seeking medical attention. With help from the Express Scripts Foundation, CHIPS has developed a cost-saving model that results in successful early detection and treatment of disease, together with health education. This model helps avoid the high cost of unnecessary emergency room use and enables us to effectively combat diseases such as diabetes, which are particularly prevalent in our community."

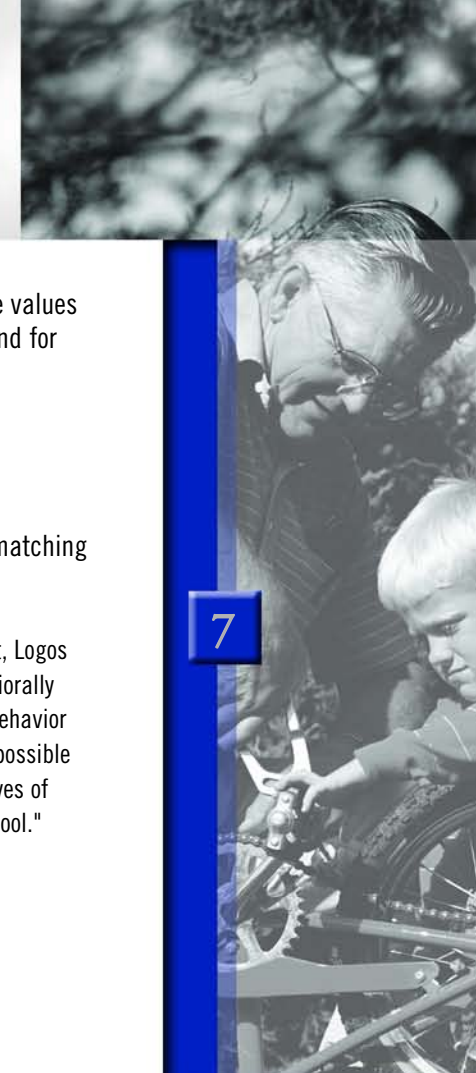

*Judy Bentley  
President/CEO  
Community Health-In-Partnership Services (CHIPS)*

"With the Express Scripts Foundation's generous grant, Logos was able to decrease referrals among our most behaviorally challenging students across the board. Through our Behavior Intervention Program and additional resources made possible by the Foundation, Logos is able to continue saving lives of adolescents who otherwise would drop out of high school."

*Dr. David Thomas  
CEO  
Logos School*
